

Elodin End Table

Elodin End Table

The Elodin End table embraces the beauty of simplicity and natural materials to make a truly unique silhouette. Each stone slab is mitered to effortlessly nest at the top of the coopered wooden arc—giving the stone the illusion of weightlessness while also serving as a functional surface. The complementary stone feet pierce through the curve, allowing the frame to hover in space. With its clean design and distinct structure, the Elodin End Table adds geometry and natural beauty to any space. Available for commercial and residential use. Please refer to the *Materials Catalogue* for all available options.
