

Euclid Bench

Euclid Bench

Inspired by the stability and beauty of Euclidean geometry, The Euclid Bench's faceted profile also pays tribute to the great Euclid tree of Sequoia. The bench's signature frame features gently faceted legs—available in a variety of solid domestic hardwoods. Handwoven in solid braid cotton cord, each seat delicately cascades over the edge of the bench, piercing the curved base. The Euclid Bench combines both strength and delicacy—complementing a wide range of aesthetics and settings. Perfect for the entryway, kitchen, dining room, or bedroom. Suitable for indoor commercial and residential use. Please refer to the Materials Catalogue for all available options.
