# Zetlin Cocktail Table

The rings of the Zetlin Cocktail Table nest together at various heights emulating the recognizable silhouette of the observation towers at the 1964 New York World's Fair. The stone flows seamlessly across the revealed end grain ring of the wooden drum. Perfectly matched as a pair or beautiful as a solo sculptural table, the Zetlin Cocktail Table marries form and function and architectural history in it's design. Suitable for commercial and residential use. Please refer to the Materials Catalogue for all available options.
